

VOTE DEEP!

Monday, March 3rd

Sandeep Dhir

Your
AlbertaLiberal candidate
for
Edmonton Manning

Albertans deserve better. We deserve a government as smart, entrepreneurial and hard working as we are.

Alberta needs a plan. We need a sophisticated government to manage the new economy. We

need a smart government that ensures all Albertans get a fair opportunity to participate in our economy.

The Tory Government has failed to lead this province and simply does not have a plan for managing Alberta's complex economy.

We, as Albertans, want a responsible and competent government.

After 36 years, it's time for change and I'm ready.

This Time, Go Deep!

The Alberta Tories are irresponsible

- homelessness has increased in Edmonton by 19% in the last 2 years
- due to shortages in health care workers, many families go without a family doctor
- the cost of education continues to rise for Alberta families
- housing costs are rising and rent keeps going up

A Real Action Plan for Alberta

- eliminate health care premiums... NOW
- re-regulate electricity to lower our household bills
- provide hospitals and train the health care professionals we need
- cap green house gases in 5 years
- invest 30% of all royalties...before it is too late
